usage.

The Lumion logo must stand alone. You must maintain a minimum amount of space between the Lumion logo and other graphic or textual elements.

To preserve the integrity and clarity of the logo, a standard area of "clear space" should be maintained around the logo in all uses.

The minimum clear space is defined as "x" where "x" is measured by the distance between the word Lumion and the rest of the logo, as shown on the primary vertical logo version.

When this is not possible, then other solid colors can be used. Preferably grey/light grey/black (please see page 10 for more information on logo placement).

Depending on the background and web/print limitations, the primary or secondary logo versions can be used.

"Lumion_logo_2017_Monochrome_PMS.eps" should be used only in combination with a background of the same color (7698C) or with a white background, in case of monochromatic printing.
